

Course Overview

Course Description

Spanish III continues where Spanish II ends, and serves as a bridge to Spanish IV. Students learn new vocabulary and review that previously learned. Students are exposed to many new verb tenses, modes, and uses. Greater oral and written fluency is stressed, and larger more authentic pieces of Hispanic literature will be read and discussed. Students view “La Catrina” and “La Catrina: El Último Secreto”, two telenovelas designed for student use to provide cultural and linguistic input.

Goal

The goal of Spanish III is to introduce the last of the most commonly used components of Spanish grammar, allowing students access to more native communication, both written and verbal. Students learn to become more reflective about how they and their culture view global issues and how to express those views.
