

Course Overview

Course Description

Spanish IV is the culmination of a four-year program of study. It focuses on reviewing material from previous years, and introducing a few final verb tenses and grammar rules. The emphasis is on production, both written and oral. Students will do more reading, writing, and oral presentations than in any of the previous years. Students learn new vocabulary, grammar, and culture along with Hispanic art, literature, and history. Grammar, vocabulary and culture are further integrated through viewing **Destinos** a 52-part telenovela designed for students.

Goal

The goal of Spanish IV is to prepare students for further study of the Spanish language and to increase their oral language and literacy skills through a more in-depth study of historical events, certain works of art, various pieces of literature, and grammatical analysis.

Scope and Sequence

Timeframe	Unit	Instructional Topics
